Subject: RE: Pillon update

Jeff

John Huntington has run down the Biodiesel lead on the 800 gallons of stuff that Mr. Pillon removed from the property. When he spoke with the guy at the company he found out that they had not yet destroyed the sample that they took (they test for water content only). They provided the sample to John – would you like it for your testing procedures?

Thanks,

Scott

Subject: Pillon update

Jeff

I know that you are probably swamped now that you are actually able to get on site, but any update you could provide would be helpful. I have a hearing on Pillon this Friday – we will be addressing the amount of the “Cleanup Restitution Fee” as well as hearing allegations that Pillon continues to violate the terms of his sentence (namely he has not paid toward his financial obligations, he continues to do “work” at the property and have materials removed /relocated/dumped and finally that he refused access to EPA). If you are able to give me an update great, if not I understand.

Thanks,

Scott A. Marlow
